

VS 333 Domestic Animal Anatomy Syllabus

Instructor Information

Instructor: Dr. Shari Lanning

Email: Shari.Lanning@colostate.edu (Responses to email will be provided within 48 hours during weekdays.)

Cell phone: 970-692-7105 (Work cell phone specifically for you to text or call me, so use it!!! ;))

Course Prerequisites

Students must have taken at least one college-level course in general biology.

Course Description

Domestic Animal Anatomy is the study of the structure and function of the bones, muscles, and organs of common domestic animals. The goal of the course is to present the comparative anatomy of the dog, horse and cow using hundreds of high-resolution images, animated movements, and a 3D anatomy lab. The course includes clinical examples and real cases to enhance students' ability to understand how form (anatomy) dictates function (body movement and response to environment).

Course topics include anatomic evaluation of the:

- Thoracic limb
- Pelvic limb
- Head
- Trunk
- Cardiovascular system
- Respiratory system
- Urinary system
- Nervous system
- Digestive system
- Reproductive system

Domestic Animal Anatomy VS 333 uses state of the art 3D imaging of cadaver dissections and preparations to highlight the anatomy in an environment that does not require a laboratory setting.

Course Objectives

1. Define, describe, and utilize appropriate anatomical terminology as it related to the structures listed in this course.
2. Describe the relationship of form (anatomic structure) and how it relates to function of that structure or organ.
3. Define, describe, and identify normal anatomic structures listed for all four species listed in the course: canine, feline, equine, and bovine.
4. Compare and contrast the anatomy of the four species covered in this course.
5. Describe and apply anatomical structures in a multi- step processes: e.g. stimulation of the radial nerve would be associated with extension of the elbow via contraction of the triceps muscle group in all four species.

Textbook & Required Materials

A course requirement is the **Virtual Animal Anatomy** (containing **Virtual Canine Anatomy (VCA)**, **Virtual Feline Anatomy (VFA)**, **Virtual Bovine Anatomy (VBA)**, and **Virtual Equine Anatomy (VEA)**) programs by Dr. Ray Whalen. Most of the laboratory assignments will be delivered via these programs.

The textbook IS NOT REQUIRED. Since I do not take any test questions from any textbooks. Feel free to contact me for recommendations.

Open access book you may find helpful:

- Cornell University (<https://secure.vet.cornell.edu/oed/Horsedissection>)
- Interactive Drawings for Veterinary Anatomy (<http://www.images4u.com/>)

Course Content

1. Units and Modules

This course is delivered completely online. There are 4 units in the course, each with a comprehensive exam. Each unit is divided into modules. Each module contains information presented as an interactive page with images and course content. The first part of each module

consists of a list of objectives and a lecture outline. All the information you need to know for exams is contained within the body of the online modules and labs. There are several "See it in the lab!" buttons you will see in lectures. These are just shortcuts and you are still responsible for other materials in the lab. Each module is associated with a Quiz. These quizzes are worth 5 points each and will count towards your grade. See the schedule to know when each of these quizzes are due. No makeups will be allowed. Use the lecture schedule and Quizzes to pace yourself through the material.

2. Laboratories

The labs will primarily be delivered via VCA, VFA, VBA, and VEA programs as described above.

There is a list of objectives for each module to guide you on the terminology you need to know, e.g. you do not need to know all of the terminology presented in VCA/ VFA/ VBA/ VEA, only those listed on my weekly list of lab objectives.

3. Quizzes

You can select the Quiz from the last page of any lecture. You can also find these all listed in the "Quizzes" tab on the left. The Quizzes consist of several questions equaling 5 points total that provide you with feedback about whether or not you learned the major concepts in the lecture. The Quiz will give you immediate feedback about your ability to learn this way. If you are not happy with your initial Quiz score, you have the option of taking the quiz one additional time (a total of two attempts). Different questions will be available for each attempt. This is to encourage students to learn from their initial mistakes, review the material they need additional instruction, and attempt the assessment again. **These are graded and will be part of your final grade.**

4. Video/Audio Captures of Modules

The above-described lectures and labs are the primary way in which important material will be delivered in this course. However, to offer a visual/ auditory method for those students who benefit from this learning style, I have recorded videos of each lecture to provide a guide for the material. Plus, I can make quick edits to the written lectures, but it takes a while to re-record that same video lecture, so the content of the written lecture and video capture might be very slightly different. The video-tape links are available at the top of the page of each lecture.

5. Other Review Materials

A link to Quizlet questions is associated with each module. The TAs have developed and continued to update these questions. I do not write these questions. The Quizzes are written by me, and therefore represent a more accurate example of question style and content you will need to know for the course. The Echo360 PowerPoints are also written by me and act to link the lecture modules and lab images for you to test yourself on the material.

6. Optional Clinical Cases (Units 1-4)

Following the modules of each unit will be Clinical Case Studies. These are real veterinary cases and are strictly supplemental. They are intended to be fun, and most students really enjoy them. They help students put together what they have learned in the previous lectures. **You will not be tested on these cases.**

Examination, Assignments and Grading

A total of 360 points come from the 4 exams (200 points), and 30 Bonehead Quizzes (150 points).

1. EXAMS--200 points

Exam Information

There will be **4 online examinations** in this class. Each exam consists of multiple-choice lecture and lab questions (images). You access course exams via the "Quizzes" icon on the left of the homepage (more later). Dates for exams can be found under the "Course Schedule" icon on the homepage. The following exam information is very important. **Please read this thoroughly!**

Exams must be taken between 8 AM and 8 PM MST. The exam automatically closes at 8 PM Colorado time, so make sure you start the exam early enough to give yourself time to complete it.

Exams are **closed book, closed note (closed access to any version of course content)** **examinations.** The last question of each exam is an Honor Pledge asserting that you have not received or given any unauthorized assistance in this exam. By submitting the exam after reading the pledge, you have pledged that you did not give or receive any assistance during the exam (all exams are closed course, closed books, closed notes, closed electronics of any kind other than your login to the exam itself).

Under NO circumstances, should you print an exam. Printing examinations at any time during the entire course will result in an F grade for the course.

All exams must be taken and submitted online. Each examination will be comprehensive, including the final examination (as outlined below).

The laboratory questions present a fixed image with a question (images will be taken from the course or labs). The lab questions are also multiple choice. **After you "submit" your exam, you will immediately receive your score.**

The exams typically are composed as described below. These are approximations, and actual numbers of lab/ lecture and review questions may vary.

Any student caught cheating on an exam or quiz will receive a zero for that assignment and will be reported to the Academic Integrity Office.

Unit 1	Modules 1-9	50 pts.	50 multiple-choice questions (with images)
Unit 2	Modules 1-22	50 pts.	50 multiple-choice questions (with images); includes approximately 5 review questions.
Unit 3	Modules 1-27	50 pts.	50 multiple-choice questions (with images); includes approximately 8 review questions.
Unit 4	Modules 1-31	50 pts.	Final Examination 50 multiple-choice questions (with images); includes approximately 10 review questions
Quizzes	3 total (5 points each)	160 pts.	See schedule for various due dates. Quizzes will be multiple choice or fill in the blank and will only include material from that lecture. They do not include lab material. These quizzes are also closed book/ note.
	Total Points Possible from Exams and Quizzes	350 pts	

Make Up Policy

Exams are scheduled on specific dates listed in the Course Schedule (see link on the homepage). **You MUST take the exam on these dates.** It is YOUR responsibility to take the exam on the designated date! If you fail to take an exam on the specified date, you will receive zero points for that exam. If you are unable to take the exam during the times listed in the schedule, please contact me immediately and we can discuss if there are other options for taking the exam earlier.

The only reason I will excuse a student from taking an exam on a designated date is a doctor's document stating that the student was medically incapable of taking the exam OR if there was an error in opening the exam on our end. A student CANNOT decide what is a "good" or "bad" reason for not taking an exam and then simply inform the instructor of that decision.

Universal Design for Learning/ Accommodation of Needs

I am committed to the principle of universal learning. This means that our classroom, our virtual spaces, our practices, and our interactions be as inclusive as possible. Mutual respect, civility, and the ability to listen and observe others carefully are crucial to universal learning.

If you are a student who will need accommodations in this class, please contact me to discuss your individual needs. Any accommodation must be discussed in a timely manner. A verifying memo from [The Student Disability Center](#) may be required before any accommodation is provided.

The Student Disability Center (SDC) has the authority to verify and confirm the eligibility of students with disabilities for most accommodations. While some accommodations may be provided by other departments, a student is not automatically eligible for those accommodations unless their disability can be verified and the need for the accommodation confirmed, either through SDC or through acceptable means defined by the particular department. Faculty and staff may consult with the SDC staff whenever there is doubt as to the appropriateness of an accommodative request by a student with a disability.

The goal of SDC is to normalize disability as part of the culture of diversity at Colorado State University. The characteristic of having a disability simply provides the basis of the support that is available to students. The goal is to ensure students with disabilities can be as successful as they have the capability to be.

Support and services are offered to student with functional limitations due to visual, hearing, learning, or mobility disabilities as well as to students who have specific physical or mental health conditions due to epilepsy, diabetes, asthma, AIDS, psychiatric diagnoses, etc. Students who are temporarily disabled are also eligible for support and assistance.

Any student who is enrolled at CSU, and who self-identifies with SDC as having a disability, is eligible for support from SDC. Specific accommodations are determined individually for each student and must be supported by appropriate documentation and/or evaluation of needs consistent with a disability. SDC reserves the right to ask for any appropriate documentation of disability to determine a student's eligibility for accommodations as well as in support for specific accommodative requests. The accommodative process begins once a student meets with an accommodations specialist in the SDC.

2. QUIZZES- 150 points

There will be **30 online quizzes** in this class, each worth 5 points. Each quiz will be a combination of multiple choice, fill in the blank, and true/false type questions. Images from that lecture may be used in the quiz.

You access course quizzes via the "Quizzes" icon on the left of the homepage (same for exams). Dates for quizzes can be found under the "Course Schedule" icon on the homepage (more

later). Quizzes are available from the first day of the course. Quiz close dates are listed in the schedule. There will be no make-ups or extensions allowed for Quizzes.

Quizzes are closed book, closed note (closed access to any version of course content), closed electronics of any kind other than your login to the quiz itself.

Each quiz will only cover the content covered in its associated lecture and are intended to test your knowledge of the lecture so you can determine if further review of the material is needed prior to the exams. There will be no cumulative material represented in the quizzes.

If you are not happy with your initial Quiz score, you have the option of taking the quiz one additional time (a total of two attempts). Different questions will be available for each attempt. This is to encourage students to learn from their initial mistakes, review the material they need additional instruction, and attempt the assessment again.

Under NO circumstances should you print or copy a quiz. Printing quizzes at any time during the entire course will result in an F grade for the course. If you are or become aware of past quizzes that are available to students please report this to me immediately, as it would give an unfair advantage to a few students in the class.

After you "submit" your quiz, you will immediately receive your score and a one-time opportunity to view your quiz. You have the option of retaking the quiz, if you are not happy with your grade. The retake quiz will have different questions associated with it.

3. GRADES Total points 350

Your final grade will be generated from scores on the 4 examinations (200 pts), plus your Quiz grades (150 pts).

Grade Distribution:

315--350 pts. = A

280--314 pts. = B

245--279 pts. = C

210--244 pts. = D

less than 210 = F

With special permission from the instructor, and under certain circumstances beyond the student's control, if the student is unable to complete the course in the designated time period, a grade of "Incomplete" may be assigned. At Colorado State University, an incomplete grade converts automatically to an F on the transcript if the course is not satisfactorily completed within a year of the time the incomplete is awarded. **It is against CSU policy to give a grade of "I" (Incomplete) to a student who has a grade of D or F at the time of the request.**

E-mail

It is very important that you check email and Announcements (in Canvas) every day for important information. Any changes in the scheduling of course exams or other important information will be sent via email and announcement.

Academic Integrity Policy

Under NO circumstances, should you print an exam, either during the exam or afterwards when I open it for your review. Printing examinations at any time during the entire course will result in an F grade for the course. You should not communicate with other students in the course about the exam until the exam has closed.

This course will adhere to the CSU [Academic Integrity/Misconduct](#) policy as found in the General Catalog and the [Student Conduct Code](#).

Academic integrity lies at the core of our common goal: to create an intellectually honest and rigorous community. Because academic integrity, and the personal and social integrity of which academic integrity is an integral part, is so central to our mission as students, teachers, scholars, and citizens, I will ask that you affirm the CSU Honor Pledge as part of completing your work in this course.

Further information about Academic Integrity is available at CSU's [Academic Integrity - Student Resources](#).

CSU Honor Pledge

Academic integrity lies at the core of our common goal: to create an intellectually honest and rigorous community. Academic integrity, and the personal and social integrity of which academic integrity is an integral part, is so central to our mission as students, teachers, scholars, and citizens. I ask that you affirm the CSU Honor Pledge as part of completing your work in this course. While you will not be required to affirm the honor pledge, you will be asked to affirm the following statement at the start of your exams:

"I have not given, received, or used any unauthorized assistance."

Further information about Academic Integrity is available on the website provided here:
<https://tilt.colostate.edu/integrity/>

Virtual Office Hours

If you would like to have a personal conference with me or one of the teaching assistants, email us and we can meet in person (if local) or set up a phone, online meeting, or other form of

personal meeting. We all like to interact with students in the class, so please do not hesitate to contact us.

Third-party Tools/Privacy

Please note that this course may require you to use third-party tools (tools outside of the Canvas learning management system), such as Skype and others. Some of these tools may collect and share information about their users. Because your privacy is important, you are encouraged to consult the privacy policies for any third-party tools in this course so that you are aware of how your personal information is collected, used, and shared.

Copyrighted Course Materials

Please do not share material from this course in online, print, or other media. Course material is the property of the instructor who developed the course. Materials authored by third parties and used in the course are also subject to copyright protections. Posting course materials on external sites (commercial or not) violates both copyright law and the CSU Student Conduct Code. Students who share course content without the instructor's express permission, including with online sites that post materials to sell to other students, could face appropriate disciplinary or legal action.

Undocumented Student Support

Any CSU student who faces challenges or hardships due to their legal status in the United States and believes that it may impact their academic performance in this course is encouraged to visit [Student Support Services for Undocumented, DACA & ASSET](#) for resources and support.

Additionally, only if you feel comfortable, please notify your professor so they may pass along any additional resources they may possess.

Title IX/Interpersonal Violence

For the full statement regarding role and responsibilities about reporting harassment, sexual harassment, sexual misconduct, domestic violence, dating violence, stalking, and the retaliation policy please go to: [Title IX – Sexual Assault, Sexual Violence, Sexual Harassment](#).

If you feel that your rights have been compromised at CSU, several resources are available to assist:

- Student Resolution Center, 200 Lory Student Center, 491-7165
- Office of Equal Opportunity, 101 Student Services, 491-5836

A note about interpersonal violence: If you or someone you know has experienced sexual assault, relationship violence and/or stalking, know that you are not alone. As instructors, we are required by law to notify university officials about disclosures related to interpersonal violence. Confidential victim advocates are available 24 hours a day, 365 days a year to provide support related to the emotional, physical, physiological, and legal aftermath of interpersonal violence. Contact the Victim Assistance Team at: 970-492-4242.

Religious Observances

CSU does not discriminate on the basis of religion. Reasonable accommodation should be made to allow individuals to observe their established religious holidays. Students seeking an exemption from attending class or completing assigned course work for a religious holiday will need to fill out the [Religious Accommodation Request Form](#) and turn it in to the Division of Student Affairs, located on the second level of the Administration building.

Once turned in, the Division of Student Affairs will review the request and contact the student accordingly. If approved, the student will receive a memo from the Dean of Students to give to their professor or course instructor.

Students are asked to turn in the request forms as soon as the conflict is noticed. Similarly, unanticipated conflicts requiring a religious observance, such as a death in the family, can also be reviewed.

CSU Principles of Community

Inclusion: We create and nurture inclusive environments and welcome, value and affirm all members of our community, including their various identities, skills, ideas, talents and contributions.

Integrity: We are accountable for our actions and will act ethically and honestly in all our interactions.

Respect: We honor the inherent dignity of all people within an environment where we are committed to freedom of expression, critical discourse, and the advancement of knowledge.

Service: We are responsible, individually and collectively, to give of our time, talents, and resources to promote the well-being of each other and the development of our local, regional, and global communities.

Social Justice: We have the right to be treated and the responsibility to treat others with fairness and equity, the duty to challenge prejudice, and to uphold the laws, policies and procedures that promote justice in all respects.

Diversity and Inclusion

“Respect for Diversity: It is my intent that students from all diverse backgrounds and perspectives be well served by this course, that students’ learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength and benefit. It is my intent to present materials and activities that are respectful of diversity: gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture. Your suggestions are encouraged and appreciated. Please let me know ways to improve the effectiveness of the course for you personally or for other students or student groups. In addition, if any of our class meetings conflict with your religious events, please let me know so that we can make arrangements for you.” - [Source](#)
